

EMPLOYMENT OPPORTUNITY

PROJECT ENGINEER/MANAGER – Water & Sewer

POSITION SUMMARY:

The Water/Wastewater Project Engineer/Manager is a professional with a minimum of 10 years of experience. This individual will plan, design and perform analysis on water/wastewater engineering projects such as pipelines; pumping stations; and treatment facilities. Engineer should be self-motivated, capable of acting as firm's representative to clients, and providing support to branch offices in NJ/PA/DE/MD area.

PRIMARY DUTIES:

- Hydraulic calculations and layout of structures.
- Producing correspondence/reports/biddable documents for arsenic, radium and iron removal water plants; wells; water storage tanks; pumping stations; piping systems; and wastewater treatment plant improvements.
- Engineering support to the inspection department.
- Act as firm's representative to municipalities, utility authorities and private utility companies.
- Draft concise proposals for new work.
- Capable of addressing multiple simultaneous assignments, on-time and within budgets.
- "Proactive" identification of problems/issues coupled with detailed analysis and effective resolution.
- Producing all deliverables associated with this position.
- Capable of addressing multiple simultaneous assignments, on-time and within budgets.
- Regulatory permitting.
- Assist with energy audits.

KNOWLEDGE, SKILLS & ABILITIES:

- Knowledge of water/wastewater equipment and their purpose.
- Ability to read and comprehend complicated construction, drawings, schematics, specifications, codes, and handbooks.
- Ability to clarify and concisely express thoughts verbally and in written correspondence/reports/specifications.
- Provides effort and takes pride in all work assignments produced.
- Not afraid to ask for guidance/assistance in order to expedite the date of assignment deliverables.
- Ability to simultaneously work on group and individual assignments.
- Capable of providing directions and mentoring less experienced staff.
- Capable of managing project meeting attended by either staff, clients or contractor's personnel.
- Familiarity with NJDEP regulations and compliance requirements.
- Must have effective communication, management and writing skills.
- Must be skilled in the use of Word/Excel products.
- AutoCAD capability a plus.

EDUCATION/EXPERIENCE:

- Bachelors of Science Degree in Civil, Mechanical, Structural, or Chemical Engineering curriculum from an accredited four-year college or university.

CERTIFICATIONS/LICENSES REQUIRED:

- NJ Professional Engineer (PE) License Required or Ability to Acquire NJPE Reciprocity Essential
